

It's *Your* Wedding Reception

At Lifetime Entertainment you get to plan your wedding - your way. You select the music, you set the pace, and you decide which traditions you want carried out.

Since your special day is planned your way, you may choose to have all of the traditions, including Formal Introductions, Toasts, cutting of the cake, etc... or you may choose to have only a few of the traditional formalities. You may even have some family traditions of your own that are out of the ordinary. We will meet with you several weeks before your wedding to help you completely plan the event.

At the reception, you control the pace of the events and the volume of the music. You also choose the energy level of the entertainer. We are prepared to provide you with a highly energetic DJ, or one that simply plays great music. Your wish is our command!
